Scrutiny of bills relating to the construction of a new Chattram at Benares.

SIR,

With reference to your letter No.2129/Muz.325-28-6 dated the 3rd April 1929, I have the honour to state that for getting the works relating to the above Chattram properly measured and for scrutinising the bills prepared therefor by Mr.R.N.Ray, Engineering and Contractor. it may be necessary to depute an officer of the P.W.D., to inspect the works carried out and check the measurements thereof. A similar course was adopted in the year 1927 when the estimates for the work had to be got checked, and Government sanctioned in G.O.No.1893-6/Muz.207-26-21 dated the 31st March 1927 the deputation of Mr.N.Lakshminaresimhaiya, Assistant Engineer (now Executive Engineer) for the purpose.

2. It is also stated in your D.O. letter No.2032/Muz.325-28-3 dated the 25th March 1929, that an estimate may be prepared for adding some bath rooms and a kitchen to the Chattram at Benares and providing ghat steps to the building.

3. It will facilitate matters if the deputation proposed in para 1 above is sanctioned by Government to enable the estimate being prepared after ascertaining the rates prevailing in the locality and check-measure all the works and scrutinise the bills amounting to nearly Rs 29,000 sent by the Muzrai Commissioner. If this proposal is approved by Government, Mr.D.A.Hukeri, Assistant engineer may be sent on deputation on the

same terms as were sanctioned in connection with the deputation of Mr.N.Lakshminarasimhaiya to Benares. The period of deputation may be limited to about 18 days including the journey to and fro.

SIR,

With reference to G.O.No.2225-8/Muz.325-28-dated 15th April 1929, I have the honour to forward herewith the final bill of Mr.R.N. Ray, Engineer and Contractor for work done in the New Chattram Building at Benares as checked and scrutinised on the spot by Mr.D.A.Hukeri, Assistant Engineer. The accompanying note by the Assistant Engineer explains the main features of the case.

2. The bills as submitted by Mr.Ray amounted to Rs. 28922-5-9 After check measurements of quantities and rates, the amount was reduced to Rs.28641-9-3/-. This latter amount includes an excess of Rs. 604/- on account of extra rates claimed by the contractor and a provision of Rs. 1377/- at 5 per cent on the revised quantities and rates. The excess on account of extra rates may be passed as a special case as indicated in the note.

3. As regards the provision under contingencies, it may be observ that it is not a proper claim and according to the practice in voruo in the Public Works Department. contingencies are not provided in a --- revised estimate. Mr.Ray, however, has represented in his letter --- dated 14th March 1929 to the Dewan that he has been put to loss on ----

during Execution of Work

account of several hindrances and has requested that the bi with contingencies may be passed. He also represented to --- Mr.Hukeri that he had to do the work of an Engineer and also a contractor and as Engineer he had to prepare working plans, -- etc., and enter into correspondence with State Officers for -- which he had maintained separate establishment and that compensation was due to him on the account. I think the contractor's representation deserves consideration and some compensation may be given to him. The percentage for preparing working plans, etc., may be taken at 2½ per cent of the cost of the estimate and the amount due at the rate may be passed. If this - - - recommendation is approved, the amount of the final bill will be reduced to Rs. 27953-1-3 only.

4. An estimate for further additions to the new building has been forwarded separately. In view of the satisfactory completion of the present work, the question of entrusting the further work to Mr.Ray may be considered after the estimate is sanctioned and it is decided to start the work.

I have the honour to be,

Sir,

Your most obedient servant,
